RE: Biochemistry 492 Senior Thesis Deadlines

COPY TO: Biochemistry 492 Faculty Advisors

Deadlines for completion and deposit of Biochemistry 492 theses are fast approaching for students planning to graduate this May. Departmental deadlines are as follows for May 2007 graduation:

**before Mar. 30** -- Draft of thesis due to research advisor for review. It is the student’s responsibility to check with their advisor on this. **Note:** April 9 deadline for *final draft* (advisor has completed review and you have made all changes) copy of thesis to be nominated for distinction and awards.

**April 9, Monday (12:00 noon)**

[This deadline must be met in order to be eligible for distinction consideration]

**April 17-19** -- Interviews: the Biochemistry Awards Committee will review all nominated theses and interview those students being considered for High or Highest Distinction. Students give a 10 minute presentation of their work.

**May 2, Wednesday (12:00 noon)**

**Note:** research advisor must approve the thesis prior to the departmental format check; only minor format corrections may be made after this date.

**May 10, Thursday (12:00 noon)** -- Original copy of thesis, with red-bordered certificate signed by research advisor, and departmental copy due in 420A RAL.

**May 10, Thursday (12:00 noon)**

**May 13, Sunday** -- Commencement

A copy of the guidelines for preparation of the Biochemistry 492 thesis is attached. These rules must be followed in order for the thesis to be accepted by the department and the College of Liberal Arts and Sciences and for microfilming. See me if you have any questions. Samples of past theses are available for review in room 420A RAL.
