Course Overview and Description:

As a science major, there are certain encompassing competencies that you should have by the time you graduate. Students should be able to:

1. Know and apply the basic knowledge in their field of study
2. Effectively communicate this knowledge both orally and in writing
3. Exhibit strong critical thinking and problem-solving skills
4. Apply knowledge and critical thinking skills to new information and problems

MCB 298 A&B aim to help students develop some of these skills. Such skills are useful to students planning to continue to graduate school and are highly transferrable to other career paths as well.

Communication, critical thinking, problem solving, analytical skills and teamwork, appear frequently on lists of top skills sought by employers in a multitude of fields.

DESCRIPTION:
The focus of this course is a semester-long project in which students, in groups, will continue to develop the biological product began last semester in 298 A.

OBJECTIVES: Students will…

- Develop greater appreciation for the concept of creativity and inventive problem solving in science.
- Improve written communication skills; specifically, in scientific writing and professional communication via email.
- Improve teamwork skills through participation, reflection, and peer evaluation.
- Increase confidence interacting with research professors and discussing research ideas.
Course Prerequisites: None

Course Text/Materials Information: No text. Idea Journal required (see below)

Course Tools: Moodle

Grading Information and Breakdown:
You receive one hour of graded Honors credit for the Honors Lab Discussion (MCB 298). While most students receive a high grade in this class, it is not an “easy A”—a high level of performance is expected from all Honors students. Grades will be based upon assignments and presentations as follows:

<table>
<thead>
<tr>
<th></th>
<th>Total Number</th>
<th>Points for each</th>
<th>Total Points</th>
<th>Weighted Percentage of final grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>Attendance</td>
<td>12</td>

Other Information:

FORMAT and ATTENDANCE:
Students will spend most of the time in class interacting with their teammates, exchanging ideas, and gathering feedback from their peers. Some team meetings outside of class may be necessary. In order to facilitate in-class research/discussion, I ask that those of you who are able, please bring your wireless capable lap-tops or tablets to class. MCB 298 B meets once per week with two “catch-up” weeks built into the semester (a total of 12 meetings). For the “catch-up” weeks, attendance is not required; rather, groups will meet outside of class as needed. Attendance at each class meeting is critical for a complete honors experience; therefore, attendance at each discussion is worth 3 points. Also, our time is short and late arrivals disrupt the class: You will receive 2 attendance points for the week if you are more than 5 minutes late to class and 1 point if you are more than 10 minutes late. Total attendance points will be
scaled to 15% of your final grade. Because we meet only 12 times this semester, I will not be allowing any “drops” for missed classes. However, you will be allowed to make up missed assignments if the absence is considered “excused.”

WRITTEN REFLECTIONS:
Reflective writing helps students to develop critical thinking and promotes creativity. When you write reflectively about your experiences, you think more deeply about your learning and consider how to apply those concepts to wider issues. It also develops communication skills and self-awareness. There are four written reflection assignments that will be submitted through the course Moodle. There is never a specific length given for your reflections. I expect you to write as much as you need to address the prompt. It usually takes around 400-600 words to fully addressed the specific prompt assigned. See rubric below for grading guidelines. Reflection grades will be scaled to 20% of your final grade.

IDEA JOURNAL:
Throughout the semester, you will be asked to keep an Idea Journal. For this class, your idea journal is a place for jotting down inspirations, developing ideas, sketching illustrations/diagrams, etc. The more creative your journal is, the more it will be able to inspire you and help you to visualize your goals.

1. Your Journal must be a physical, bound, notebook/journal of any type. Any size, any binding, lined or unlined, hand-made or purchased. No three-ring binders and no loose-leaf paper please. Note that small is fine since it means you are more likely to keep it with you.
2. Please bring your journal to class EVERY CLASS PERIOD so you can use it to its full potential.
3. Your idea journal is a place to record your thoughts and ideas throughout the semester. You should also use your journal as a place to keep notes on all your 298 course work, team meetings, professor interviews, assignment preparation, etc. It is also completely appropriate to include notes about connections you see to course material in other classes (both in and outside of MCB), current events, social media, and your everyday life.
4. Your journal will be checked four times throughout the semester (times noted in the syllabus). Each time, there should be new material entered since the previous check.
5. As in all aspects of this course, creativity is highly valued; therefore, you must be creative in producing your journal. Exploring your creative side while thinking scientifically helps to connect your “right” and “left” brain, opening yourself to new ideas and thinking “outside the box!”
6. You are encouraged to handwrite in your journal. Creativity can be expressed by adding pictures, sketches or any other embellishments to add visual or textural interest to your journal. Consider cutting pictures out of magazines, journals or old books. Minimally, the use of color is encouraged. Some art supplies and materials to cut up are provided in the Honors Office (213 Burrill Hall).
7. You may also express your creativity in any other way you can imagine (include pictures, diagrams, flow charts, concept maps, etc.). Think outside the box!

For each of the four journal checks (as outlined in the syllabus), you will be graded mostly on completion and creativity, as shown in the rubric below. Idea Journal assignments will be scaled to 20% of your final grade.

I was really able to develop my creative thinking and open up through this class. Keeping track of my thoughts and project ideas through a weekly journal was very helpful.
### Grading Rubric for Idea Journal and Written Reflections

<table>
<thead>
<tr>
<th>Written Reflection</th>
<th>0</th>
<th>1-2</th>
<th>3-4</th>
<th>5-6</th>
<th>7-8</th>
<th>9-10</th>
</tr>
</thead>
<tbody>
<tr>
<td>No entry or incorrect prompt followed.</td>
<td>Extremely short, bare minimum attempt, or impossible to read or interpret due to poor presentation (grammar, etc.).</td>
<td>Shows some effort, but short, lacking depth and/or lacking attention to basic grammar.</td>
<td>Average entry. Minimally addresses the prompt and/or demonstrates some attention to personal reflection.</td>
<td>Strong entry. Demonstrates thoughtful attention to the prompt and/or personal reflection.</td>
<td>Outstanding entry. Demonstrates deep personal insight and/or personal reflection or connections made.</td>
<td></td>
</tr>
</tbody>
</table>

| Idea Journal | No new material since the previous entry. | Minimal text only and NO attempt at creativity. | Bare minimum attempt at creativity: use of ONE “creative” element (color, decoration, etc.). | Average level of creativity: some decorations or creative elements, but they are minimal and do not enhance or help explain the information presented. | Good level of creativity. Use of color and embellishments or illustrations that relate to the information OR any other creative element that enhances the entry. | Excellent level of creativity. Student clearly put forth time and effort to well enhance the information presented AND it is interesting to look at. |

“To practice any art, no matter how well or badly, is a way to make your soul grow. So do it.

--Kurt Vonnegut

“The true sign of intelligence is not knowledge, but imagination.”

--Albert Einstein
TEAMWORK:
MCB 298 B will focus substantially on building teamwork skills. **There will be two major team assignments: The Experimental Design Paper and the Final Presentation—each will be scaled to 20% of your final grade.** It is important that all members of the group contribute equally to the work. This will be assessed via personal and peer evaluation of teamwork and may be a component of the student’s final grade.

CATME Team Evaluation:
Teams will be evaluated using an external program (CATME: Comprehensive Assessment of Team Member Effectiveness). You will receive emails from CATME prompting you to complete the survey during a specific window of time. Points will be given for completing the survey and will be reduced if you fail to complete it on time.

LATE POLICY:
Assignments with due dates must be turned in on time; late assignments will not receive full credit: **a minimum 5% of the total grade earned will be deducted for any late assignment and an additional 5% per day late. Assignments greater than one week late will not be accepted.** E-mail or internet problems are no excuse for late work so please do not wait until the last minute to submit assignments.

ICES forms
MCB Curriculum Policies

For non-academic campus assistance and support:
- See Office of Diversity, Equity and Access (ODEA) information at the end of this document.

Student Advocacy Resources:
- For student-centered advocacy programs and services visit: mcb.illinois.edu/undergrad/advising/resources.

Contacting MCB Course Personnel:
- MCB course personnel are more than happy to assist students.
- Emails to instructors, TAs, or course coordinators will only be answered if they come from an @illinois.edu account. We will only use this account in order to protect your educational information and profile. As a student, please remember that when you email a staff member, it is important to include all pertinent information so that we can assist you in the most efficient and effective manner possible. This information includes:
  o The course rubric in the subject line
  o Your full first and last name
  o Your NetID (the first part of your illinois.edu email account)
  o Your UIN (9 digit number that can be found on your iCard)
  o The course that you are concerned about (the course personnel often work with multiple courses)
  o Your section letter/number
  o The previous email "thread" or previous communicated information pertinent to the situation
- Your cooperation will help us respond much more quickly to your concerns.

Policies:
- Unfamiliarity with policies is not a defense for not knowing what they cover.

Adding the Course after the Semester Starts:
- We understand that the University has an add deadline 10 days into the semester, but the University lets individual courses and/or programs determine their policies for late adds. We feel that students who choose to add a course late do so at their own discretion with knowledge that there may be points lost in the process.

Religious Observances and Practices:
- Students are required to submit the Request for Accommodation for Religious Observances Form (which can be found at www.odos.illinois.edu/.../Religious_Observance_Accommodation_Request_Form.docx) to their instructors and the Office of the Dean of Students requesting accommodation by the end of the second week of the course. Requests that are not submitted within this time frame may not be granted. Information about accommodations can be found in the Student Code: http://studentcode.illinois.edu/.

DRES Accommodations:
- We are committed to providing a learning environment where our students can succeed. If you require special accommodations, please contact us and the Disability Resources and Educational Services (DRES) as soon as possible. To contact DRES, you may visit 1207 S. Oak Street, Champaign, call 217.333.4603, or email disability@illinois.edu. We will try to meet all accommodations once the process has started. Please note that accommodations are not
retroactive to the beginning of the semester, but begin the day you contact your professor, instructor or coordinator with a current letter of accommodation from DRES.

- If a student believes that they need DRES accommodations, they should contact DRES at disability@illinois.edu.

Class Absences:

- Regular class attendance is expected of all students at the University. [http://odos.illinois.edu/studentAssistance/absence/revised_code.asp](http://odos.illinois.edu/studentAssistance/absence/revised_code.asp)
- If you find yourself ill, you must submit confirmation of a visit with a medical practitioner within 24 hours of your absence. The confirmation cannot be provided by a relative, even if the relative is a practitioner.
- The Office of the Dean of Students will only provide informative letters to instructors for protracted illness of 3 or more days, certain emergencies and to be present during the serious illness of immediate family members (parents, legal guardian, spouse/partner, siblings, children, or grandparents). These letters do not excuse you from class but merely provide information for the instructor to consider with regard to excusing the absence and permitting make-up work. Students must request absence letters from the Office of the Dean of Students after the student has returned to class but not more than 10 business days after the last date of absence.
- Absences that may be excused without a letter include circumstances beyond the student’s control such as medical treatment, surgery related to prolonged illness or injury, pregnancy, legal matters, citizenship or naturalization processes, or acts of nature which cause destruction to a primary residence or disrupt air travel. All will require documentation.
- Absences that may also be excused without a letter include a conference or job, graduate or professional school interviews, though a best effort should be made to schedule these events to minimize class attendance disruption. All will require documentation.
- Absences planned for the items listed in previous bullet point must be communicated to your instructor or course coordinator at least two weeks in advance of the absence. Failure to do so may result in the loss of opportunity to reschedule the missed class period and the portion of the grade associated with this class period.
- Absences that will not be excused include family events such as reunions or weddings, or presence during serious illness of extended family members (aunt, uncle, niece, nephew, or cousin).
- Unplanned absences may result in the loss of opportunity to reschedule the missed class period and, therefore, the portion of the grade associated with this class period.
- Absences will be handled according to individual course policy.

Exams:
- This class has no exams

Grades:
- Each course has a grade scale. The grade you earn in the course will be based on the points that you earn. Effort is reflected in points earned. We will adhere to the grade scale when assigning grades in order to avoid capriciousness and to adhere to fairness and equity for all students.

Academic Integrity:
- The Code of Policies and Regulations Applying to All Students will be applied in all instances of academic misconduct committed by students. This applies to all exams, presentations,
assignments and materials distributed or used in this course. You can review these policies at the following website: http://admin.illinois.edu/policy/code/index.html and specifically here: http://studentcode.illinois.edu/article1/part4/1-401/

- Science cannot exist without honesty. The faculty and staff in MCB require students, as scientists-in-the-making, to hold the highest standards of scientific and academic conduct. Any form of cheating on any graded work in courses is unacceptable.
- We require that all graded work be entirely your own, and that anything you write using the words of other writers be correctly attributed. Some specific points follow.
- On exams, the answers that your turn in for grading must be your own, formulated during the exam from your own understanding of the material and without any supporting information, be it written, verbal or electronic. Copying the work of another student, or allowing another to copy your work, or copying work from any other source, is unacceptable. Since we cannot always monitor you as you complete your work, we must rely upon appearance of your work from which to judge. If the work you submit resembles that of another student or another source too closely, we may conclude that it was not your original work. Always make a conscious effort to complete your work on your own and to protect it from the view of others, in order to ensure that it will be seen as your own. Failure to adhere to these standards for any portion of an exam may result in a grade of zero for the entire exam or quiz for all persons involved.
- Texting, or the use of a cell phone or any other device for any purpose, during a quiz or exam is prohibited. Doing so may earn you a zero or a more extreme penalty on the quiz or exam at the discretion of the instructor.
- Use of any social or electronic media to share information, request information or make confidential course information public is prohibited. Any use of this type may earn you a zero on the exam or a more extreme penalty at the discretion of the instructor.
- On written or electronic assignments, the answers that you turn in for grading must be written in your own words, formulated from your own understanding of the material. While you may be working with other students in the course, you must formulate and submit your own answers. Copying or paraphrasing the work of another student, or allowing another to copy or paraphrase your work, is unacceptable. Since we cannot monitor you as you complete your work, we have only the appearance of your work from which to judge. If the work you submit resembles that of another student too closely, we may conclude that it was not your original work. Always make a conscious effort to complete your work on your own and to protect it from the view of others, in order to ensure that it will be seen as your own. You must also make a conscious effort to protect your passwords and accounts. Failure to adhere to these standards may result in a grade of zero for the entire assignment for all persons involved.
- On written or electronic assignments, if you use a statement taken directly from any book or other publication, including the course textbook, you must provide a citation. That is, you must put the text in quotes and put the author of the publication in parentheses after the quotation. Failure to do so will result in zero credit for that answer. Further, using only the words of another author as your entire answer or as the majority of your answer to any question is never sufficient to earn credit. If the majority of your work has been taken directly from a publication, you are likely to receive no credit for the work, since you would not be demonstrating knowledge beyond the ability to copy. Even if you quote another, your answer must be substantially your own words, drawn from your own understanding of the material.

Electronic Media/Device Use:
- Use of any social or electronic media to share course information, request course information or make confidential course information public is prohibited. Any use of this type may earn you a zero on an assignment or exam or a more extreme penalty at the discretion of the instructor.
- Any violation of the social media policy on your account may result in a zero on an assignment or exam or a more extreme penalty at the discretion of the instructor.
Any social media sites created in relation to MCB courses must grant access to course personnel upon request. Failure to provide access will result in a failing grade in the course for the group/site's administrator(s).

No electronic devices, including smart watches, are allowed at exams.

Course Material:

- Students are welcome and encouraged to make audio recordings of course lectures.
- The material recorded is intellectual and copyrighted property of the University of Illinois Board of Trustees and may be made for personal use only.
- Video recordings of any kind are strictly prohibited.
- Posting of audio recordings or transcriptions on social or electronic media platforms is strictly prohibited.
- Posting or redistributing of course material in any format is strictly prohibited.

University Information of Student Safety - Active Threats:

General Emergency Response Recommendations (Emergency Response Guide):

- Security Threat. The Department of Homeland Security and the University of Illinois at Urbana-Champaign Office of Campus Emergency Planning recommend the following three responses to any emergency on campus: RUN > HIDE > FIGHT

- Only follow these actions if safe to do so. When in doubt, follow your instincts - you are your best advocate!

- RUN — Action taken to leave an area for personal safety.
  - Take the time to learn the different ways to leave your building before there is an emergency.
  - Evacuations are mandatory for fire alarms and when directed by authorities! No exceptions!
  - Evacuate immediately. Pull manual fire alarm to prompt a response for others to evacuate.
  - Take critical personal items only (keys, purse, and outerwear) and close doors behind you.
  - Assist those who need help, but carefully consider whether you may put yourself at risk.
  - Look for Exit signs indicating potential egress/escape routes.
  - If you are not able to evacuate, go to an Area of Rescue Assistance, as indicated on the front page of this plan.
  - Evacuate to Evacuation Assembly Area, as indicated on front page of this plan.
  - Remain at Evacuation Assembly Area until additional instructions are given.
  - Alert authorities to those who may need assistance.
  - Do not re-enter building until informed by emergency response personnel that it is safe to return.
    - Active Threat: IF it is safe to do so, run out of the building. Get as far away as possible. Do NOT go to the Evacuation Assembly Area.

- HIDE — Action taken to seek immediate shelter indoors when emergency conditions do not warrant or allow evacuation.
  - Severe Weather:
    - If you are outside, proceed to the nearest protective building.
    - If sheltering-in-place due to severe weather, proceed to the identified Storm Refuge Area or to the lowest, most interior area of the building away from windows or hazardous equipment or materials.
Active Threat:
- Lock or barricade your area.
- Get to a place where the threat cannot see you.
- Place cell phones on silent.
- Do not make any noise.
- Do not come out until you receive an Illini-Alert advising you it is safe.
- **FIGHT** — Action taken as a last resort to increase your odds of survival.
  - Active Threat: If you cannot run away safely or hide, be prepared to fight with anything available to increase your odds for survival.

Student Resources/Where to go for Help:
