School of Molecular & Cellular Biology

**MCB 493-REM, Spring 2022**
Research Experience in Microbiology, 3 Credit Hours

**Instructor**
Dr. Asma Hatoum-Aslan  
Chemical and Life Science Lab B213  
Email: ahatoum@illinois.edu  
Phone: 217-333-1736

**Class Meeting Schedule**
Lecture: T, 2:00-2:50 PM  
Lab hours: T, 3:00-3:50 PM  
W, R, 2:00-3:50 PM  
Location: Noyes 216  
Office Hour: By appointment

**Course Overview and Description**
Research-based lab course that isolates new bacterial viruses (phages) and characterizes their phenotypic and genotypic features, with an overarching class goal to build a collection of diverse phages that are suitable for therapeutic and other applications. Includes lectures and discussions on current scientific literature and experiments using modern microbiology, microscopy, molecular, and genomics techniques. The course exposes students to the full spectrum of activities entailed in conducting authentic scientific research.

**Course Prerequisites**
MCB 250 and MCB 251 or permission from instructor

**Student Learning Outcomes**
At the end of the course, through assignments, discussions, activities and assessments, students will be able to:
- Describe in detail the life cycles, phenotypic, and genotypic properties of bacterial viruses (phages) and phage-derived applications for therapeutic, industrial, and research purposes.
- Describe in detail the diverse immune systems in bacteria that defend against phages.
- Perform modern microbiology, molecular, genomic, and microscopic techniques commonly employed in phage research.
- Critically analyze data derived from experiments performed in the lab and in peer-reviewed scientific literature.
- Report on research conducted in the lab and current research from the literature in both written and oral formats.

**Course Text/Materials Information**
Compilation of tailored protocols, review articles, and primary research articles—to be made available on Canvas
Course Website, Course Tools
Web Address (TBA), Canvas

Grading Information and Breakdown
The following assessments are designed to test and ensure consistent progress on all five learning goals above. There are 450 possible points in the course. The breakdown is as follows:

1. **Quizzes** (175 points). Seven quizzes will be administered throughout the semester that focus on research topics and experimental concepts learned during the prior two to three weeks. Each quiz is worth 25 points.
2. **Lab reports** (100 points). Two lab reports written in the format of a primary research article will be assigned. Each lab report is worth 50 points.
3. **Lab Notebooks** (100 points). You are expected to maintain a detailed lab notebook of your daily activities throughout the semester. Lab notebooks will be collected and graded along with lab reports (twice during the semester.) Each collection will be worth 50 points.
4. **Final Presentation** (50 points). Each lab group will deliver an in-class presentation of data collected and lessons learned throughout the semester during the final exam period.
5. **Attendance** (25 points). Students are expected to attend all lab sessions having prepared by reading through the protocols ahead of time.

Attendance Policy
Students are expected to attend all sessions and are responsible for all material even when absent.

**Lab sessions:** It is very important to be present at every session, or you will miss important information and your experiments will fall behind. If you have a valid reason for missing lab, you are expected to arrange for your lab partner to continue experiments in your absence.

**Quizzes:** If for a valid reason you cannot attend a scheduled quiz, you must contact me a week in advance. If you are sick or it is an emergency, you must provide written documentation from a medical practitioner within 24 hours of the absence. Failure to provide a valid reason for the absence can result in as little as a full letter grade off, or as much as a zero grade on the quiz. Please note that traveling early for a vacation is NOT a valid excuse for missing a quiz.

Elasticity Statement
The instructor will make every effort to follow the course calendar (outlined on the next page) and the guidelines of this syllabus as listed; however, the instructor reserves the right to amend this document as the need arises. In such instances, the instructor will notify students in class and/or via email and will endeavor to provide reasonable time for students to adjust to any changes.

<th>Week of</th>
<th>Discussions &amp; Activities</th>
<th>Assigned Readings (come prepared to discuss)</th>
<th>Dates of quizzes &amp; other assessments</th>
</tr>
</thead>
</table>
| Jan. 17 (Week 1) | Lecture/Discussion:  
- Introduction to the scientific method  
- Introduction to phages  
- Lab Safety training  
Activities:  
- Media & Reagent prep  
- Sample collection | 1. SOP for wastewater  
2. SOP for BSL-1  
3. Keen, 2015 (Bioessay on phages)  
*Lab safety trainings and acknowledgement forms (Due Jan 25) | |
| Jan. 24 (Week 2) | Lecture/Discussion:  
- Phage life cycles and practical applications  
Activities:  
- Enriching for phages in liquid culture  
- Media prep | 4. Salmond and Fineran, 2015 (Review on phages & applications) | |
| Jan. 31 (Week 3) | Lecture/Discussion:  
- Phage-host receptor interactions  
Activities:  
- Phage enrichment (cont’d)  
- Phage detection using double-agar overlay assays. | 5. Dunne et al, 2018 (Review, phage-host interactions, gram positives)  
6. Chaturongakul and Ounjai, 2014 (Review, phage-host interactions, gram negatives) | Quiz 1 on 2/1 (Tuesday)  
Includes readings 1-4 |
| Feb. 7 (Week 4) | Lecture/Discussion:  
- Phages of gram negatives  
Activities:  
- Phage plaque purification  
- Media prep (as needed) | 7. Casjens and Hendrix, 2015 (Review on phage Lambda)  
8. Kaczorowska et al, 2019 (Primary research article—E. coli phage therapy) | |
| Feb. 14 (Week 5) | Lecture/Discussion:  
- Phages of gram positives  
Activities:  
- Phage purification (cont’d)  
- Media prep (as needed) | 9. Hatoum-Aslan, 2021 (Review on staphylococcal phages)  
10. Melo et al, 2018 (Primary research article—staph phage therapy) | Quiz 2 on 2/15 (Tuesday)  
Includes readings 5-8 |

</table>
General MCB Curriculum Policies

For non-academic campus assistance and support:
- See Office of Diversity, Equity and Access (ODEA) information at the end of this document.

Student Advocacy Resources:
- For student-centered advocacy programs and services visit: mcb.illinois.edu/undergrad/advising/resources.

Contacting MCB Course Personnel:
- MCB course personnel are more than happy to assist students.
- Emails to instructors, TAs, or course coordinators will only be answered if they come from an @illinois.edu account. We will only use this account in order to protect your educational information and profile. As a student, please remember that when you email a staff member, it is important to include all pertinent information so that we can assist you in the most efficient and effective manner possible. This information includes:
  - The course rubric in the subject line
  - Your full first and last name
  - Your NetID (the first part of your illinois.edu email account)
  - Your UIN (9 digit number that can be found on your ICard)
  - The course that you are concerned about (the course personnel often work with multiple courses)
  - Your section letter/number
  - The previous email “thread” or previous communicated information pertinent to the situation
- Your cooperation will help us respond much more quickly to your concerns.

Policies:
- Unfamiliarity with policies is not a defense for not knowing what they cover.

Adding the Course after the Semester Starts:
- We understand that the University has an add deadline 10 days into the semester, but the University lets individual courses and/or programs determine their policies for late adds. We feel that students who choose to add a course late do so at their own discretion with knowledge that there may be points lost in the process.

Religious Observances and Practices:
- Students are required to submit the Request for Accommodation for Religious Observances Form (which can be found at www.odos.illinois.edu/.../Religious_Observance_Accommodation_Request_Form.docx) to their instructors and the Office of the Dean of Students requesting accommodation by the end of the second week of the course. Requests that are not submitted within this time frame may not be granted. Information about accommodations can be found in the Student Code: http://studentcode.illinois.edu/.
DRES Accommodations:

- We are committed to providing a learning environment where our students can succeed. If you require special accommodations, please contact us and the Disability Resources and Educational Services (DRES) as soon as possible. To contact DRES, you may visit 1207 S. Oak Street, Champaign, call 217.333.4603, or email disability@illinois.edu. We will try to meet all accommodations once the process has started. Please note that accommodations are not retroactive to the beginning of the semester, but begin the day you contact your professor, instructor or coordinator with a current letter of accommodation from DRES.
- If a student believes that they need DRES accommodations, they should contact DRES at disability@illinois.edu.

Class Absences:

- Regular class attendance is expected of all students at the University. ([http://odos.illinois.edu/studentAssistance/absence/revised_code.asp](http://odos.illinois.edu/studentAssistance/absence/revised_code.asp))
- If you find yourself ill, you must submit confirmation of a visit with a medical practitioner within 24 hours of your absence. The confirmation cannot be provided by a relative, even if the relative is a practitioner.
- The Office of the Dean of Students will only provide informative letters to instructors for protracted illness of 3 or more days, certain emergencies and to be present during the serious illness of immediate family members (parents, legal guardian, spouse/partner, siblings, children, or grandparents). These letters do not excuse you from class but merely provide information for the instructor to consider with regard to excusing the absence and permitting make-up work. Students must request absence letters from the Office of the Dean of Students after the student has returned to class but not more than 10 business days after the last date of absence.
- Absences that may be excused without a letter include circumstances beyond the student’s control such as medical treatment, surgery related to prolonged illness or injury, pregnancy, legal matters, citizenship or naturalization processes, or acts of nature which cause destruction to a primary residence or disrupt air travel. All will require documentation.
- Absences that may also be excused without a letter include a conference or job, graduate or professional school interviews, though a best effort should be made to schedule these events to minimize class attendance disruption. All will require documentation.
- Absences planned for the items listed in previous bullet point must be communicated to your instructor or course coordinator at least two weeks in advance of the absence. Failure to do so may result in the loss of opportunity to reschedule the missed class period and the portion of the grade associated with this class period.
- Absences that will not be excused include family events such as reunions or weddings, or presence during serious illness of extended family members (aunt, uncle, niece, nephew, or cousin).
- Unplanned absences may result in the loss of opportunity to reschedule the missed class period and, therefore, the portion of the grade associated with this class period.
- Absences will be handled according to individual course policy.
Quiz and Final Exam Session Absences:

- If you must miss a quiz or the final exam session due to unforeseen circumstances, you are required to contact your instructor or course coordinator within 24 hours of the absence. You will then have 48 hours from the absence in which to submit documentation to your instructor or course coordinator. You must also submit an online Absence Form if one is available on your course website. Course personnel will evaluate documentation and decide whether or not there will be an option to compensate for the missed session through either a make-up quiz/talk session or proration. Failure to follow this procedure will result in a zero for the assessment.
- If you find yourself ill, you must submit confirmation of a visit with a medical practitioner within 24 hours of your absence. The confirmation cannot be provided by a relative, even if the relative is a practitioner.
- If you must miss a quiz or the final exam session for a conference or job, graduate or professional school interviews, the quiz/final talk may be prorated. A best effort should be made to schedule these events around class sessions. You will need to be mindful that only one quiz may be prorated in a semester for any and all absences. All will require documentation.
- There will be instances when the student must make an individual choice about their ability to perform on a quiz and will need to accept any and all consequences for that choice.
- If the absence is a result of a protracted illness of 3 days or more, you should follow the procedure for obtaining a letter from the Office of the Dean of Students. The request may be made once the student returns to class but not more than 10 business days after the last date of absence.

Quiz or Final Exam Session Conflicts:

- If you have a regularly scheduled University course that conflicts with the session, you should complete the online Conflict Exam Request Form on the course website. This request must be made by 5:00 pm not less than 3 business days prior to the quiz. Requests made after 5:00 pm and less than 3 business days prior to the quiz will not be granted. See course policies for a specific deadline for your course.
- Work schedules should be adjusted, if at all possible, in order to eliminate a conflict with scheduled quizzes and the final exam session. Please plan accordingly at the beginning of the semester. If eliminating a conflict is not possible, the student should complete the online Conflict Exam Request Form on the course website. This request must be made by 5:00 pm not less than 3 business days prior to the anticipated missed session. Requests made after 5:00 pm and less than 3 business days prior to the anticipated missed session will not be granted.
- Students that are formally participating in officially recognized groups, such as athletic teams and performing groups, with a conflict should request a conflict exam/quiz by 5:00 pm not less than 3 days prior to the session via the online Conflict Request Form. Formal participation does not include general meetings of RSOs or any other recognized groups. Documentation of the event will be required prior to scheduling the conflict exam/quiz. Requests made after 5:00 pm and less than 3 business days prior to the anticipated missed session will not be granted.
- Students with DRES accommodations should also submit the online Conflict Request Form by 5:00 pm no later than 3 business days prior to the quiz/final session. Requests made after 5:00 pm and less than 3 business days prior will not be granted.
Final Exam Session Absence:
- If you must the final exam session due to unforeseen circumstances, you are required to contact your instructor or course coordinator within 24 hours of the absence. You must also contact the Dean of your college. Finally, you must submit an online Absence Form if one is available on your course website. You will receive an ABS (absent) in the course if you miss the final exam session. This ABS will result in an F in the course unless action is taken. The Dean can approve the change of the ABS to an Incomplete, which then allows a limited window of time for you to complete the final exam session and earn a grade in the course.
- There will be instances when the student must make an individual choice about their ability to perform during the final exam session and will need to accept any and all consequences for that choice.
- If the absence is a result of a protracted illness, you should follow the procedure for obtaining a letter from the Office of the Dean of Students. The request may be made once the student recovers but not more than 10 business days after the date of absence.
- Information about final exams can be found in the Student Code: http://studentcode.illinois.edu/.

Final Exam Session Conflict:
- Conflict final exams may only be granted for any one of the following situations:
  - Students with three final exams scheduled within a 24 hour period as defined in Section 82.A.4). Final Examinations of the Code of Policies and Regulations Applying to All Students which can be found at: www.illinois.edu/admin/manual/code/
  - Students who have two final exams scheduled at the same time. Final conflict exam requests should be made to the course with larger enrollment. Course personnel can assist with information to determine which course this would be.
  - Students who have a verified personal problem, and who have received written permission to take a conflict final exam from a dean in their college.
  - Students who have DRES academic accommodations.
- Students that find themselves in any of the above situations should complete the online Conflict Final Exam Request Form which can be found on the course website. This request must be made by 5:00 pm on the last day of class in order for the request to be granted. Any requests made after this time may not be granted. If a conflict final exam is granted, it may be scheduled at any time during the final examination period and is at the discretion of the instructor or course coordinator.

Grades:
- Each course has a grade scale. The grade you earn in the course will be based on the points that you earn. Effort is reflected in points earned. We will adhere to the grade scale when assigning grades in order to avoid capriciousness and to adhere to fairness and equity for all students.
Academic Integrity:

• The Code of Policies and Regulations Applying to All Students will be applied in all instances of academic misconduct committed by students. This applies to all exams, presentations, assignments and materials distributed or used in this course. You can review these policies at the following website: http://admin.illinois.edu/policy/code/index.html and specifically here: http://studentcode.illinois.edu/article1/part4/1-401/

• Science cannot exist without honesty. The faculty and staff in MCB require students, as scientists-in-the-making, to hold the highest standards of scientific and academic conduct. Any form of cheating on any graded work in courses is unacceptable.

• We require that all graded work be entirely your own, and that anything you write using the words of other writers be correctly attributed. Some specific points follow.

• On exams, the answers that you turn in for grading must be your own, formulated during the exam from your own understanding of the material and without any supporting information, be it written, verbal or electronic. Copying the work of another student, or allowing another to copy your work, or copying work from any other source, is unacceptable. Since we cannot always monitor you as you complete your work, we must rely upon appearance of your work from which to judge. If the work you submit resembles that of another student or another source too closely, we may conclude that it was not your original work. Always make a conscious effort to complete your work on your own and to protect it from the view of others, in order to ensure that it will be seen as your own. Failure to adhere to these standards for any portion of an exam may result in a grade of zero for the entire exam or quiz for all persons involved.

• Texting, or the use of a cell phone or any other device for any purpose, during a quiz or exam is prohibited. Doing so may earn you a zero or a more extreme penalty on the quiz or exam at the discretion of the instructor.

• Use of any social or electronic media to share information, request information or make confidential information public is prohibited. Any use of this type may earn you a zero on the exam or a more extreme penalty at the discretion of the instructor.

• On written or electronic assignments, the answers that you turn in for grading must be written in your own words, formulated from your own understanding of the material. While you may be working with other students in the course, you must formulate and submit your own answers. Copying or paraphrasing the work of another student, or allowing another to copy or paraphrase your work, is unacceptable. Since we cannot monitor you as you complete your work, we have only the appearance of your work from which to judge. If the work you submit resembles that of another student too closely, we may conclude that it was not your original work. Always make a conscious effort to complete your work on your own and to protect it from the view of others, in order to ensure that it will be seen as your own. You must also make a conscious effort to protect your passwords and accounts. Failure to adhere to these standards may result in a grade of zero for the entire assignment for all persons involved.

• On written or electronic assignments, if you use a statement taken directly from any book or other publication, including the course textbook, you must provide a citation. That is, you must put the text in quotes and put the author of the publication in parentheses after the quotation. Failure to do so will result in zero credit for that answer. Further, using only the words of another author as your entire answer or as the majority of your answer to any question is never sufficient to earn credit. If the majority of your work has been taken directly from a publication, you are likely to receive no credit for the work, since you would not be demonstrating knowledge
beyond the ability to copy. Even if you quote another, your answer must be substantially your own words, drawn from your own understanding of the material.

**Electronic Media/Device Use:**
- Use of any social or electronic media to share course information, request course information or make confidential course information public is prohibited. Any use of this type may earn you a zero on an assignment or exam or a more extreme penalty at the discretion of the instructor.
- Any violation of the social media policy on your account may result in a zero on an assignment or exam or a more extreme penalty at the discretion of the instructor.
- Any social media sites created in relation to MCB courses must grant access to course personnel upon request. Failure to provide access will result in a failing grade in the course for the group/site’s administrator(s).
- No electronic devices, including smart watches, are allowed at exams.

**Course Material:**
- Students are welcome and encouraged to make audio recordings of course lectures.
- The material recorded is intellectual and copyrighted property of the University of Illinois Board of Trustees and may be made for personal use only.
- Video recordings of any kind are strictly prohibited.
- Posting of audio recordings or transcriptions on social or electronic media platforms is strictly prohibited.
- Posting or redistributing of course material in any format is strictly prohibited.

**University Information of Student Safety - Active Threats:**
- **General Emergency Response Recommendations** *(Emergency Response Guide)*:
- Security Threat. The Department of Homeland Security and the University of Illinois at Urbana-Champaign Office of Campus Emergency Planning recommend the following three responses to any emergency on campus: **RUN > HIDE > FIGHT**

- Only follow these actions if safe to do so. When in doubt, follow your instincts - you are your best advocate!

- **RUN** — Action taken to leave an area for personal safety.
  - Take the time to learn the different ways to leave your building before there is an emergency.
  - Evacuations are mandatory for fire alarms and when directed by authorities! No exceptions!
  - Evacuate immediately. Pull manual fire alarm to prompt a response for others to evacuate.
  - Take critical personal items only (keys, purse, and outerwear) and close doors behind you.
  - Assist those who need help, but carefully consider whether you may put yourself at risk.
  - Look for Exit signs indicating potential egress/escape routes.
- If you are not able to evacuate, go to an Area of Rescue Assistance, as indicated on the front page of this plan.
- Evacuate to Evacuation Assembly Area, as indicated on front page of this plan.
- Remain at Evacuation Assembly Area until additional instructions are given.
- Alert authorities to those who may need assistance.
- Do not re-enter building until informed by emergency response personnel that it is safe to return.
- Active Threat: IF it is safe to do so, run out of the building. Get as far away as possible. Do NOT go to the Evacuation Assembly Area.

- **HIDE** – Action taken to seek immediate shelter indoors when emergency conditions do not warrant or allow evacuation.
  - Severe Weather:
    - If you are outside, proceed to the nearest protective building.
    - If sheltering-in-place due to severe weather, proceed to the identified Storm Refuge Area or to the lowest, most interior area of the building away from windows or hazardous equipment or materials.
  - Active Threat:
    - Lock or barricade your area.
    - Get to a place where the threat cannot see you.
    - Place cell phones on silent.
    - Do not make any noise.
    - Do not come out until you receive an Illini-Alert advising you it is safe.

- **FIGHT** – Action taken as a last resort to increase your odds of survival.
  - Active Threat: If you cannot run away safely or hide, be prepared to fight with anything available to increase your odds for survival.

**Student Resources/Where to go for Help:**

**We Care at Illinois**
- For sexual misconduct support, response and prevention visit: wecare.illinois.edu

*Title IX makes it clear that violence and harassment based on sex and gender are Civil Rights offenses subject to the same kinds of accountability and the same kinds of support applied to offenses against other protected categories such as race, national origin, etc. If you or someone you know has been harassed or assaulted, you can find the appropriate resources here: [http://oiir.illinois.edu/sites/prod/files/SexualMisconduct_ResourceGuide.pdf](http://oiir.illinois.edu/sites/prod/files/SexualMisconduct_ResourceGuide.pdf)*
