

UNIVERSITY OF ILLINOIS AT URBANA-CHAMPAIGN

CONVOCATION

MAY 16, 2020

**SCHOOL OF MOLECULAR &
CELLULAR BIOLOGY**

ILLINOIS

College of Liberal Arts & Sciences

TO OUR GRADUATES

Today you are graduates of the University of Illinois. It is a remarkable achievement, and we hope that you celebrate the occasion with loved ones. Commencement is a joyous and deeply symbolic event for all, including the faculty members and staff who have supported you on your journey. It is profoundly disappointing that we are unable to celebrate it together this spring. The Class of 2020 will long be remembered, however, for not only what was lost, but for your resilience and determination as you finished your degree in the face of one of the greatest challenges in our nation's history.

Congratulations, and we look forward to learning of your future success.

ACADEMIC DRESS

Academic dress, consisting of cap, gown, and hood, originated about the twelfth century and was worn primarily for warmth. Subsequently, the material of the gown and lining, and the shape of the hood, represented the economic and social, as well as academic status of the wearer.

In the United States, the great majority of the academic costumes now worn are in accordance with the general provisions of the Intercollegiate Code of 1895, which was revised in 1932 and again in 1960. Under this code, the bachelor's gown has pointed sleeves, the master's gown has oblong sleeves with an arc at the bottom, and the doctor's gown has bell-shaped sleeves. All gowns are black, although the adoption of colored gowns by individual institutions in the United States is becoming more prevalent.

The bachelor's and master's gowns are untrimmed. The doctor's gown is faced down the front with velvet and has three bars of velvet across the sleeves. The facing and bars may be black or may be the color of the subject to which the degree pertains. The bachelor's gown is worn closed; the master's and doctor's gowns may be worn open or closed. Women may wear white collars with the bachelor's gown when no hood is worn.

Hoods are also black. The bachelor's hood is 3 feet in length, the master's is 3 ½ feet, and the doctor's is 4 feet. Hoods are lined with the official color or colors of the college or university conferring the degree. At the University of Illinois, the lining is orange and blue. The colored velvet border of the hood, which is 2 inches, 3 inches, and 5 inches wide for the bachelor's, master's, and doctor's degree respectively, identifies the faculty or field of study to which the degree pertains.

The black mortarboard cap is standard in the United States. Usually, all tassels are black, but where the graduating seniors do not wear hoods, as at the University of Illinois, the color of the cap tassel indicates the department of study. At the University of Illinois, candidates for degrees wear tassels on the right front quadrant of their caps before degrees are conferred, and move them to the left front quadrant after degrees are conferred. Caps are considered a part of the costume and are customarily removed only during an invocation or benediction, and then by men only.

For all academic purposes, including trimmings of doctor's gowns, edging of hoods, tassels of caps, and linings of banners, there are different colors associated with the different disciplines. The color for Liberal Arts & Sciences is white.

Caps and gowns were worn for the first time at the University of Illinois Commencement ceremony of 1897. In the early 1900s the Commencement procession marched up Burrill Avenue to the old Armory. After diplomas were received, the procession marched back to the lawn south of Green Street. The seniors sang the State song and "Auld Lang Syne" before they said good-bye to each other and the campus.

MCB GRADUATES,

It has been our absolute joy to work with you over the past several years. We have had the pleasure of getting to know you and watching you grow into the remarkable individuals that you are today. This is certainly not how any of us planned to celebrate your years of hard work and dedication. Convocation weekend is typically one of the happiest times of the year for us. Watching each of you cross the stage and become an alumnus of the School of MCB, the College of LAS and the University of Illinois is a privilege we cherish. Our hearts are with you and your families during this unprecedented time that has altered this important rite of passage. However, we know that you are strong, intelligent and resilient. You will do amazing things with or without the Pomp and Circumstance. We congratulate you all on your achievements and hope to have the opportunity to celebrate with you in person soon. We wait in anticipation of the accomplishments your brilliant minds and kind hearts will achieve in the years to come. Please keep in touch. Be well. Do good.

Forever in orange and blue,

Your MCB and Biochemistry Advisors
